

HIGH-PERFORMANCE ADJUSTABLE SUSPENSION

ADJUSTABLE TRIM TABS

BOW STABILIZERS

ADJUSTABLE REAR SPOILERS

X-GAUGE WITH BOOST INDICATOR

SNAP-IN FENDERS (OPTION)

2015 PERFORMANCE RXT-X[®] aS[™] 260

Get the ultimate in offshore performance, with this high-horsepower watercraft that redefines speed and handling. Added performance features include a fully adjustable suspension that allows you to customize your aggressive ride and trim tabs that fine-tune the attitude of the watercraft.

NEW Sunburst Yellow & Hyper Silver

RIDER CAPACITY

Weight capacity..... 500 lb / 227 kg

DIMENSIONS

Fuel capacity..... 18.6 gal / 70 l
 Length..... 139.2" / 353.5 cm
 Width 48.2" / 122.4 cm
 Weight (dry)..... 1,020 lb / 462.7 kg
 Storage capacity 16.4 gal / 62 l

iTC / iBR / aS / S³ / CLCS / ECO

HULL

Type..... S³

- Longer platform
- Rough water inspired deep-V hull
- Stable and predictable

ENGINE

Type..... 1503 HO Rotax[®] 4-TEC[®] engine
 Intake system..... Supercharged with external intercooler
 Displacement..... 1,494 cc
 Cooling..... Closed-Loop Cooling System (CLCS)
 Reverse system iBR[®] with electronic brake, neutral and reverse
 Starter..... Electric
 Fuel type 87 octane – minimum
 91 octane – recommended

RXT-X aS 260

ENGINE

1,494 cc four-stroke, Rotax with four valves per cylinder	Supercharged, external intercooled 1503 HO Rotax 4-TEC engine provides reliable ultra-high performance in fresh or salt water, increased torque at low RPM, optimized power at all RPM levels and throttle positions.
iTC™ (Intelligent Throttle Control) system	Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features an activity-specific Touring, Sport and ECO™ modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.
iControl® Learning Key®	The programmable Learning Key allows you to limit the performance of the PWC based on rider skill level.
D-Sea-Bel™ system	Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.
Closed-Loop Cooling System	Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.
Handlebar-mounted start / stop button	Engine starts and stops with single, user-friendly control button.

FEATURES

iControl	The "Brain" that integrates and controls all systems to create the best possible ride.
S ³ Hull®	Stepped, stable & strong. The stepped design reduces drag and keeps you glued to the water.
Touring mode / Sport mode	Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Sport button. It provides all acceleration performance for a more aggressive throttle response.
ECO mode	This iTC function automatically determines the most economical power delivery and sets the optimal RPM for greatest fuel economy.
High-performance electric VTS™ (Variable Trim System)	Provides pre-set positions for quick settings when adjusting boat trim, maximizes acceleration and high-speed stability.
Reboarding platform with storage	Easy access to battery, fuses and storage.
Watertight, removable storage bin	Provides dry storage for luggage and necessities with easy access.
Tilt steering	4 adjustable steering angles for maximum ease and comfort.
Interactive Multifunction Digital Information Center	Reports 29 key operating functions: Fuel level, Tachometer, Speedometer, Hour meter, Compass, Clock, Fuel consumption instant & average, Touring mode, Sport mode, ECO mode, VTS preset, F-N-R indicator and more.
RF D.E.S.S.™ Key	Now with radio frequency technology and a new ball-and-socket design, the new Digitally Encoded Security System (D.E.S.S.) key provides riders with easy and quick starts every time.
Off-Throttle Assisted Steering (O.T.A.S.™)	Provides the operator with additional steering effect in off-throttle situations for greater maneuverability.
Hinged seat	Ski tow eye
3-up seat	Dual drain plugs
Quick latch fuel filler design	Engine access cover (removable)
Bumpers	Flush kit
Front splash deflector	Wide-angle adjustable mirrors
Swim platform carpet with Sea-Doo logo	Emergency floating lanyard
Reboarding handles on rear platform	Seat strap
Rear grab handle	Operator's guide, instructional video and booklet
Footwell carpets with Sea-Doo pattern	

PROPULSION SYSTEM

iBR (Intelligent Brake & Reverse) system	Sea-Doo's exclusive on-water braking system, iBR lets you stop up to 100 feet sooner than competitive units! All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.
Stainless steel impeller	Delivers improved acceleration, higher top speed and less cavitation.

X-PACKAGE

X-Coloration seat	Race-inspired design for comfort and great looks.
X-Handlebars with A.E.S.™ (Adjustable Ergonomic Steering)	The only fully adjustable handlebar in the industry. With A.E.S. the rider can adjust the handlebar width and grip angle for a fully customized ride.
X-Gauge with boost indicator	Shows the boost pressure in real-time from minimum (idle) to max boost pressure (open throttle) at all times so the rider knows the engine load condition.
Adjustable rear sponsons	An efficient design that improves lateral stability. 3-position adjustable for your skill level and riding environment: higher for a more playful freeride experience or lower for more aggressive turning. Winglet feature enhances lean angles during turning.
Additional gauge functions	Time / Distance to empty, Top / average speed / RPM, Lap timer, Engine temperature.

OFFSHORE KIT

aS (Adjustable Suspension)	Allows the hull to move independently of the upper deck, isolating rider and passenger from the impact of rough water. This adjustable suspension brings a racing-inspired system with 5 inches of travel that provides maximum performance and comfort in rough water conditions. Two ways to adjust the suspension: Manual compression damping adjustment via the nitrogen remote reservoir in the glove box, and suspension spring also easily adjustable with tools under the seat.
Adjustable trim tabs	Easily adjustable, these tabs limit bow rise and improve parallelism to water. Also increase tracking in rough water conditions and provide more tunability.
Bow stabilizers	Provide lateral stability and improve steering in rough water conditions as well as anti-dive to reduce bow diving.

OPTIONS

Removable wakeboard rack	Glove box organizer
Ski mode	Sandbag anchor
Slow mode	Safety kit
Cruise control	Bilge pump
Depth finder	Fire extinguisher
Fold-down reboarding step	Fender
Speed Tie™	Sea-Doo Move trailer
Removable dry bag for front storage	Storage cover

WARRANTY

BRP limited warranty covers the watercraft for one year.
